

Innovation for Nature

Central India's Leading Solar Inverter Manufacturer

Smart & Stylish

Durable & Sustainable

Long life Performance

Company Overview

Founded in 2018, Sunseed is a leader in designing, manufacturing, and distributing high-quality solar products aimed at advancing green energy and promoting sustainability. Building on our success, we introduced **Sunsathi Solar - Sathi Service Ka**, our new venture dedicated to integrating renewable energy into Residential & Commercial sites.

At Sunsathi, we are committed to innovation and excellence in solar technology. With over 15+ years of experience in the solar power electronics industry, we specialize in developing cutting-edge inverters that offer reliable, efficient, and eco-friendly energy solutions. Our latest innovation redefines efficiency and reliability in the solar industry, leading the global transition towards a cleaner, greener future.

Aim:

Our aim is to lead in inverter technology, shaping a sustainable future through innovation and reliability.

Vision:

Empowering our customers to efficiently harness Solar Energy for a Sustainable Future.

Mission:

Our mission is to promote renewable energy adoption by providing advanced solar inverter technologies that ensure maximum efficiency, reliability, and cost-effectiveness, while building consumer trust through innovative and effective solutions.

Ethical Business Service Focused Quick Response Sunsathi Core Values Transparency Innovation Consistent Quality

Why Choose Us?

Products and Services:

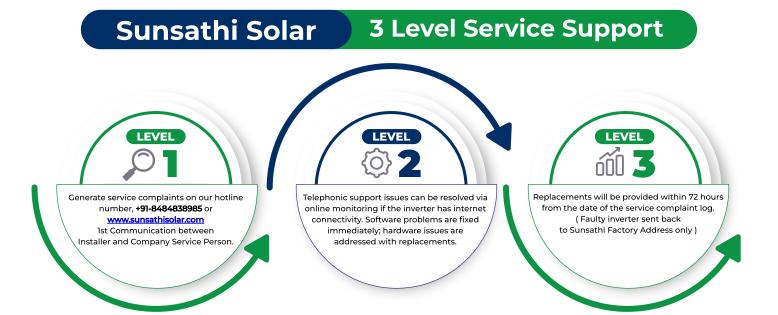

Solar Inverters: Our product range includes On-grid inverter designed to meet residential, commercial, and industrial needs.

Energy Management Solutions : We offer integrated solutions for energy monitoring and optimizing the performance of solar installations

Certifications and Compliance: We adhere to stringent quality management systems and hold certifications that attest to our commitment to quality, safety, and environmental responsibility.

Market Presence: Sunsathi Solar Inverters are renowned for their efficiency and reliability, catering to both residential and commercial markets. Our advanced technology and strong customer support make Sunsathi as a trusted Brand in sustainable energy.

Technical Support and Training: Committed to customer satisfaction, we provide comprehensive technical support and training programs to ensure seamless integration and operation of our Inverter.

SSS 1M / 2M 2.4KW~6.4KW

2.4KW/3.0KW/3.3KW/4.2KW/5.0KW/5.2KW/5.4KW/5.5KW/6.2KW/6.4KW

Optimal Power

- 98.1% Max. Efficiency
- 20A PV input current per string, 1-2 MPPT trackers

Strong Load

- 60V Start-up Voltage, longer working hours with low start-up voltage
- 110% continuous AE output overloading

Convenient Installation & Operation

- Plug & Play terminals for easy wiring
- OLED display and App for setting and data management

Flexible Design & Use

- IP66 for indoor and outdoor Installation
- Compact size and elegant appearance

KEY FEATURES

- Components from World Renowned Suppliers
- Lightweight, Compact Structure Design, Easy to Install
- Durability and Longevity with **Ip66 Protection**
- Enhanced multiple MPPT algorithm, along with String level Monitoring.
- 5th Generation High Temperature 8 High Efficiency IGBT, Improving Overall Power Generation.
- Single Phase Protection Category: Type II SPD + GDT
- Fuse less & Fan less Design
- Cap Sense Button Design for Harsh Environment
- 24H smart loads consumption monitoring export limit available

- Automotive Class PCB Technology
- **Integrated Streamlined Case** Design with Elegant Appearance
- WiFi and GPRS Remote Intelligent **Monitoring System**
- Double Modulation of Three level SPWM & SVPWM, for Pure Sine Wave
- Remote Software Upgrade, parameter Setting & Troubleshooting
- Proven HERIC Topology for Single Inverters
- Anti-Rust Enclosure
- Multi function OLED display, Easy operation and configuration
- Rounded-edge structure meets the ergonimic design, elegent and friendly to install & carry

Three-Phase Multi MPPT

Optimal Power

- 98.6% Max. Efficiency
- 15A PV input current per string, 2-3 MPPT trackers

Strong Load

• 180V Start-up Voltage, longer working hours with low start-up voltage

Convenient Installation & Operation

- Plug & Play terminals for easy wiring
- OLED display and App for setting and data management

Flexible Design & Use

- IP66 for indoor and outdoor Installation
- Compact size and elegant appearance

KEY FEATURES

Reduction of Balance of System cost (BOS) due to Integrated String Combiner Functionality...

SiC Mosfet power device introduced into Inverter improves inverter conversion efficiency of up to 98.6% which offers higher power generation.

RLC filtering Circuit for clean & green sinewave generation

24H smart loads consumption monitoring export limit available

Three Phase Protection Category: Type II SPD + GDT

RCD / GFCI / ELCB enabled for earth leakage protection

TNPC 3-Level Technology for Three Phase Inverters

Defeats Shading Effect by Global Peak Tracker Technology

Up to 20A PV input current and 30A MPPT current compatible with most high-power PV panels

Multi function OLED display, Easy operation and configuration

Rounded-edge structure meets the ergonimic design, elegent and friendly to install & carry

Aluminium alloy die-casting shell + AL heat sink offers up to 200 W/(m.K) thermal conductivity
